The Idea Behind Newsl

Chandrayaan-3 is the third a mission under Chandrayaan program Vikram and a rover named Pragyan s not have an orbiter. Its propu communication relay satellite. The lander and rover configuration until orbit.

Some facts about

Why Chandrayaan-2 failed

Chandrayaan-2 was a space mission launched from the Satish Dhawan Space Centre launch pad at the Sriharikota Range, Andhra Pradesh on 22 July 2019 at 09:13 IST. The craft reached the Moon's orbit and began orbital positioning manoeuvres to position the Vikram lander. The lander and the orbiter were scheduled to land on the near side of the Moon, in the southern hemisphere at a latitude of about 70° south on 6 September 2019.

However, the lander crashed on the Moon, far from its intended trajectory while attempting to land on 31 August 2019. According to a failure analysis report released in 2019, the crash was caused by a software error in the lander's navigation system.

ISRO has set three main objectives for the Chandrayaan-2 mission, which include:

The TATA group is a global enterprise enterprise comprises of business Automotive, Consumer & Retail, Aerospace & Defence, Tourism & Travel Investment. Companies include Tata Tata Steel, Tata Consumer Products, Ti Hotels, Tata Communication, Tata Digit

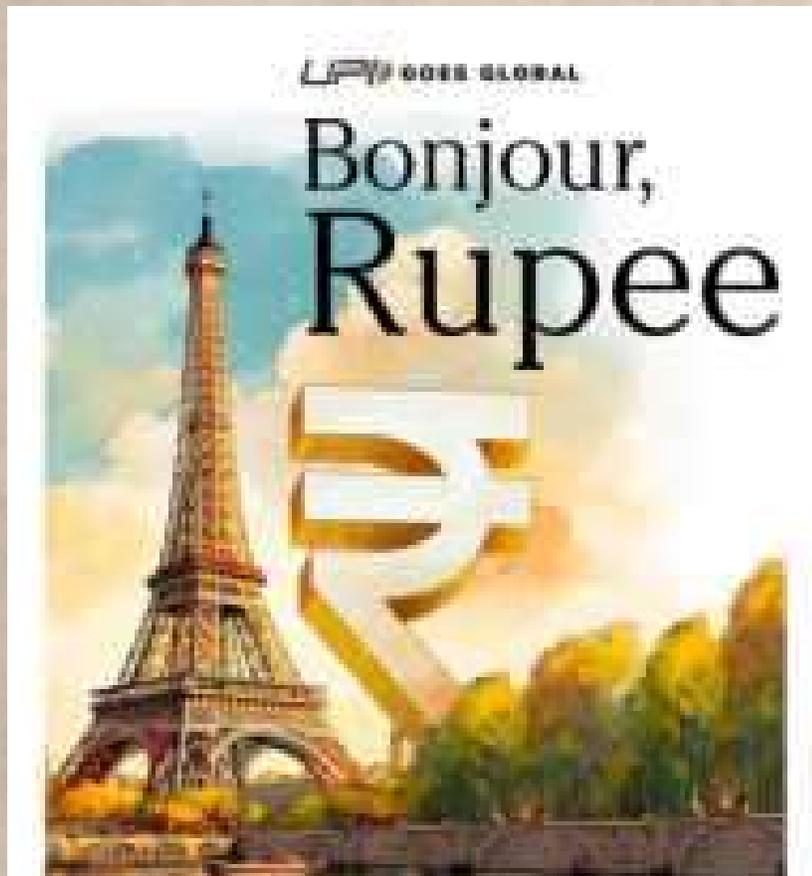

The report claims that Wistron will produce 10 billion dollar worth of iPhones by March 2010. Tata Group is also committed to triple the workforce by 2010. The report suggests that Tata Group will acquire Wistron if it finalizes the deal. But still there are many challenges for TATA Groups as well as Wistron's iPhone manufacturing.

Industry experts believe that iPhone manufacturing for Apple to be a golden opportunity for India. Indian government is courting Apple to set up iPhone manufacturing in India.

India's homegrown real-time Payments Interface (UPI)'s global reach is being pushed forward after Prime Minister Narendra Modi announced that Indian tourists will be able to make payments from atop the Eiffel Tower.

"In France, an agreement has been signed to use UPI... It will be started from the Eiffel Tower and tourists would be able to make payments from the tower in the Eiffel Tower," the PM said.

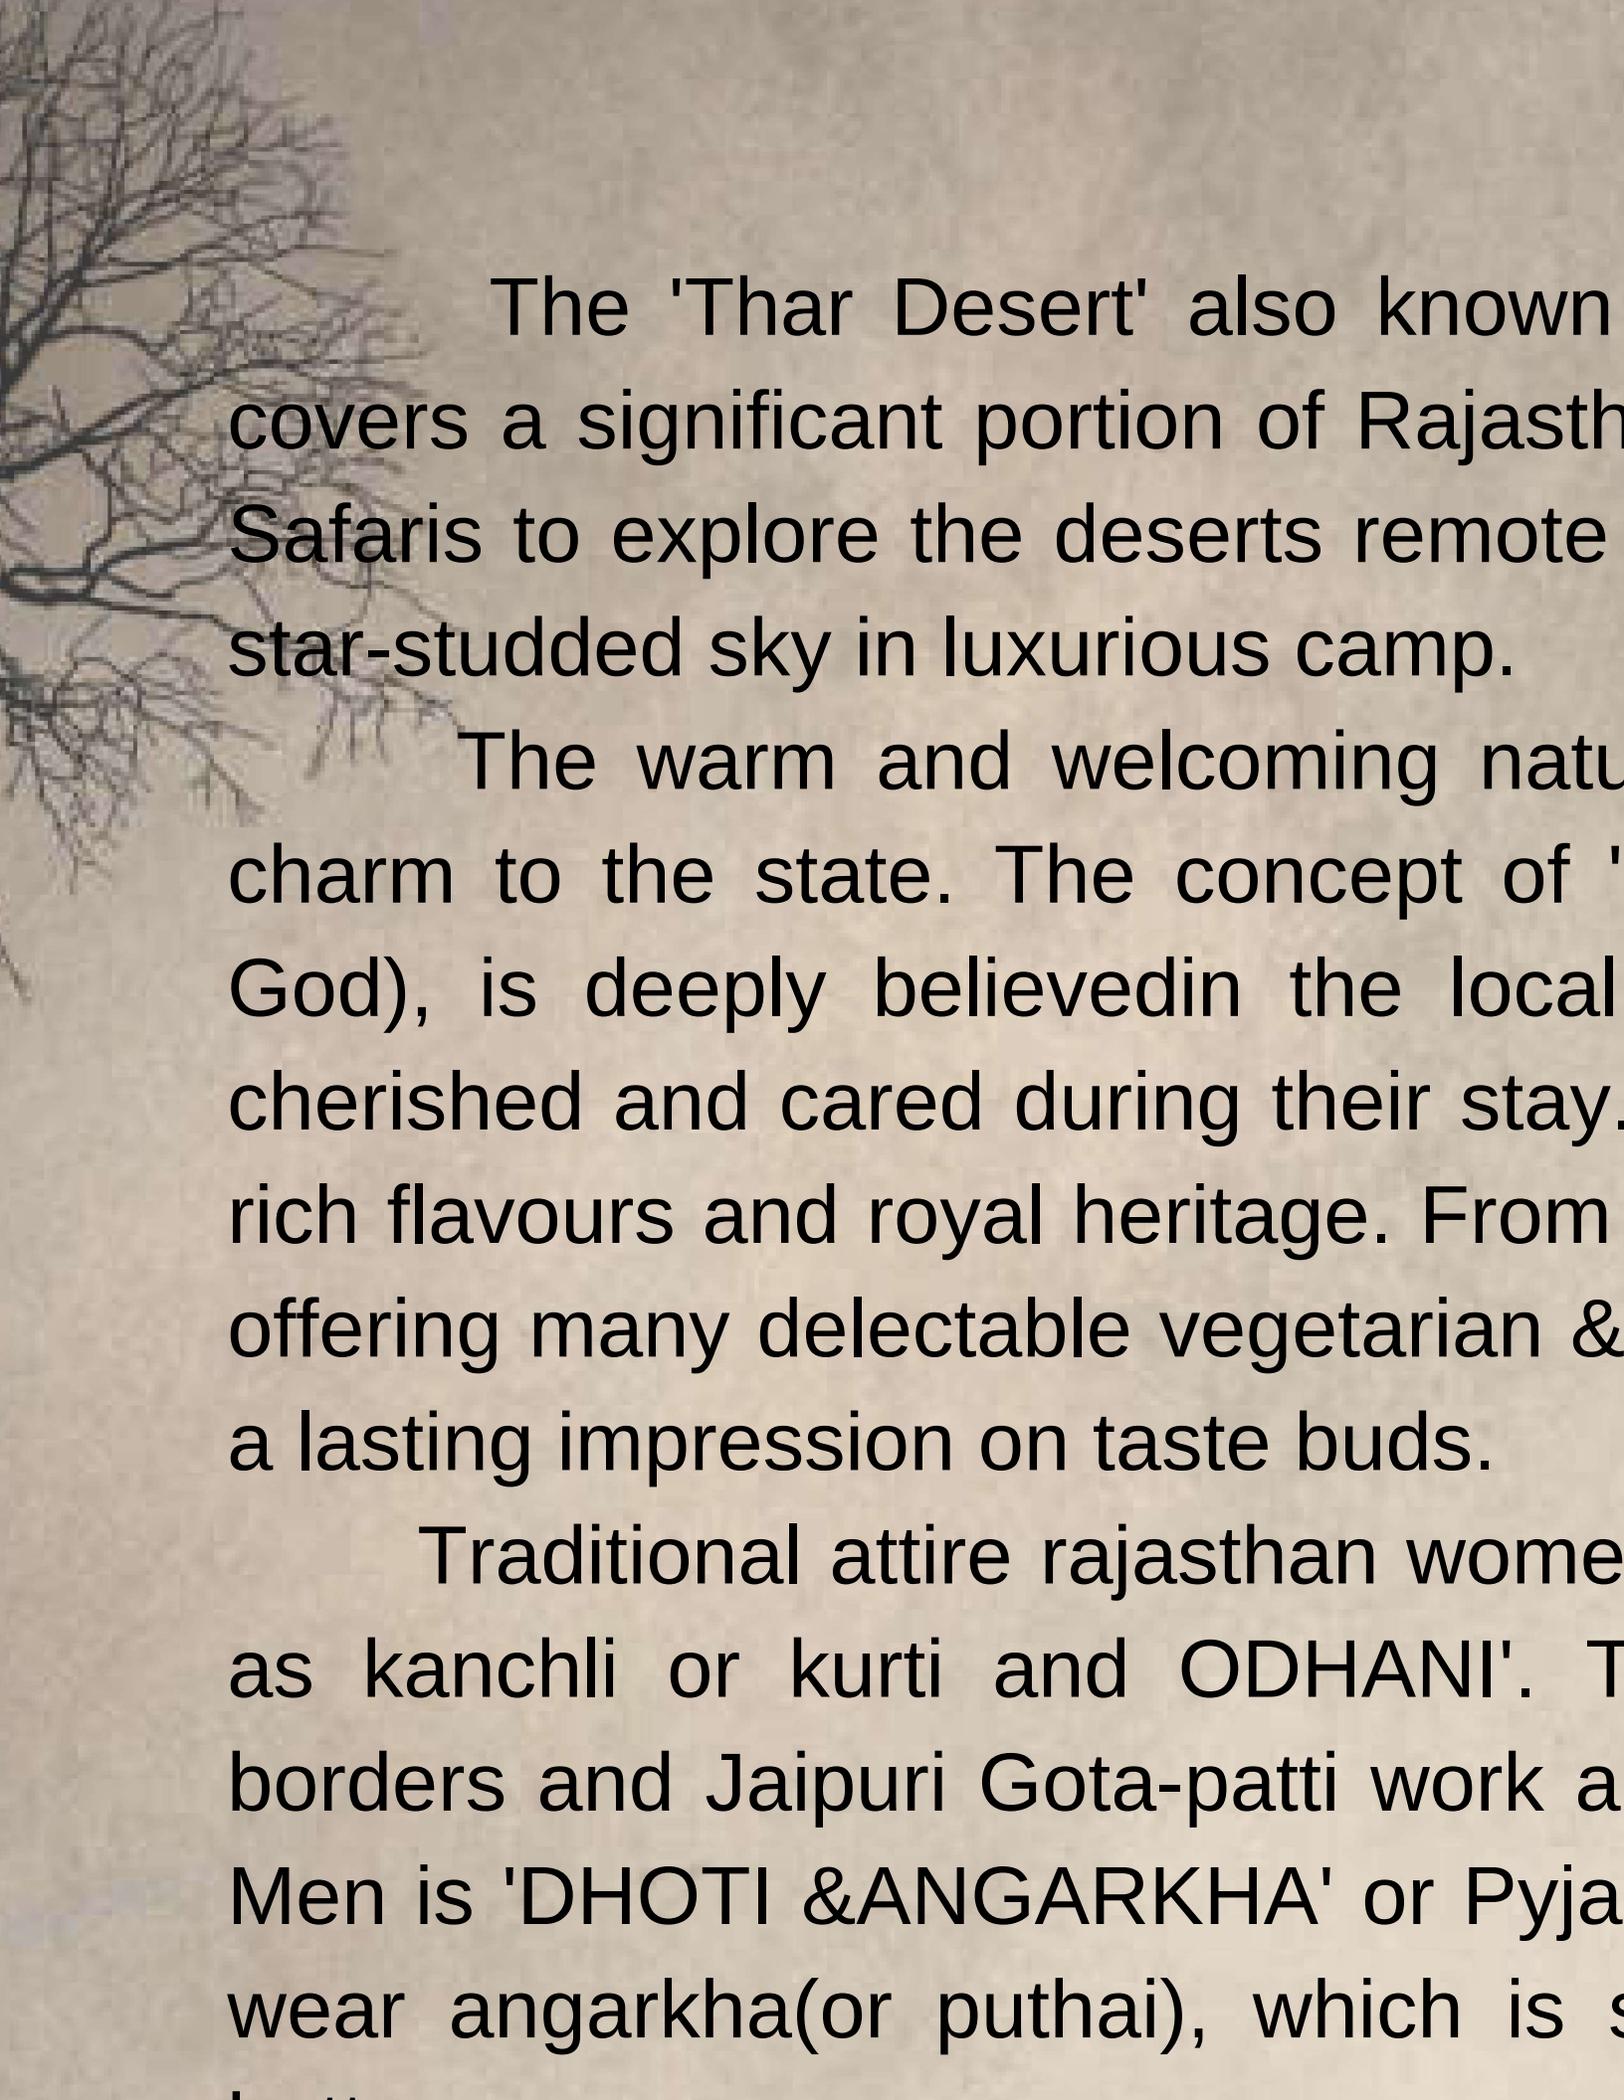

This comes just months after India signed a deal throughout Singapore as the two countries agreed on cross-border connectivity between India's digital payment counterpart PayNow. The UAE, Bahrain and Brunei have also adopted the UPI payment system and India is in talks to extend the UPI services to more countries.

MUGHAL LIFE & CULTURE TO SHAH JEHAN

‘A Royal Legacy – Mughal Life & Culture’
authored by young author Sanaya K
published in January 2021. One of t

The idea of the book first struck me when I was a child, who is an avid reader of history and the Mughal empire. Back in school, the author gathered all that she could gather about the Mughal empire and ended up filling three notebooks with notes during her journey of writing her debut book. The author also speaks about the architecture, the magnificent structure of the Taj Mahal, the curiosity, the majestic Peacock Throne, the art and jewellery, the extravagant Mughal court, and Princess Jahanara. Giving us a more detailed look at a clearly outlined hierarchy of the Mughal empire, justice to the title of the book, 'A History of Mughal Culture from Babur to Shah Jahan'. The book contains a well-researched and detailed account. The simple and vivid language ins
