Financial concept

1) Net Worth

It's the total value of everything you own (assets) minus what you owe (liabilities). If you own a house worth ₹50 lakhs, have ₹10 lakhs in savings, and your car is worth ₹5 lakhs, your total assets are ₹65 lakhs. With liabilities of ₹35 lakhs, your net worth is ₹30 lakhs.

2) Emergency Funds

This is money saved for unexpected costs, like medical emergencies or car repairs. It's best to have three to six months' worth of living expenses saved up in this fund. For monthly expenses of ₹30,000, aim for an emergency fund of ₹90,000 to ₹1,80,000
