The Scam Scanner

-Safe gaurd your Finance

Online business fraud is escalating in India, with over ₹1,750 crore lost to scams in 2024. Fraudsters are exploiting payment gateways, causing money to be deducted from customers' accounts without reaching businesses. Additionally, fake calls and messages trick people into sharing sensitive financial information.

To protect yourself, verify the authenticity of businesses before making payments, avoid clicking on suspicious links or sharing sensitive details, and use trusted payment platforms. The government introduced the Special Business Registration Unit (SBRU), which requires businesses to register before contacting customers. Non-compliant businesses face penalties, and suspicious activities can be reported through the helpline 1930 or the National Cybercrime Portal. Stay vigilant and safeguard your online transactions.

Case Study: Building the Digital Future: Inside Meta's Vision

Overview:

Meta Platforms, Inc. (started by Mark Zuckerberg in 2004) is a leading global company in social media and online communication. It owns popular platforms like Facebook, Instagram, WhatsApp, and Oculus. Meta's main goal is to create the "metaverse"—a virtual world for people to connect and interact.

Cause & Effect:

- A strong vision to connect people worldwide.
- Smart purchases of companies like Instagram and WhatsApp.
- Heavy investments in virtual reality (VR) and artificial intelligence (AI).

Company's Action:

- Changed the way people use social media and digital advertising.
- Faced problems like privacy concerns, misinformation, and government regulations.
- Became a leader in building the metaverse.

Key Takeaway:

Meta's journey highlights how innovation and vision drive success, while its challenges stress the importance of ethics and transparency. With a focus on the metaverse, Meta aims to redefine online interaction.

Financial concept

1. Lease

The lessee rents an asset for a specified period with regular payments. At the end of the lease, they usually return the asset, though they might have the option to buy it.

Eg: Government renting expensive machinery for infrastructure (eg cranes, bulldozers)

2. Hire Purchase

The buyer hires an asset, making periodic payments. After completing the payments, ownership of the asset is transferred to the buyer.

Eg: Buying a car through EMI (ownership after full payment).

STORYTIME: Nitish Kumar Reddy Shines with Century in IND vs AUS Test

Indian all-rounder Nitish Kumar Reddy made headlines on Day 3 of the fourth IND vs AUS Test at the Melbourne Cricket Ground with a stunning century, securing India's lower-order strength. His emotional century was marked by a memorable moment, as his father shed tears when Nitish reached the milestone. Reddy was retained by Sunrisers Hyderabad for INR 6 crores ahead of the 2025 Indian Premier League, further solidifying his reputation in Indian cricket.

In addition to his cricket earnings, Reddy boasts an impressive collection of assets, including a Toyota Hyryder and a high-end Urban Cruiser, valued at around INR 11.14 crores. His passion for motorcycles is evident with a collection that includes a Jawa 42 (INR 2.32 lakh) and a BMW G 310 GS (INR 3.86 lakh), showcasing his taste for luxury vehicles.

SPOTLIGHT!!
