You are required to express your inability to undertake their request for material worth Rs.15 lacs on credit for a period of 3 months. Draft the letter in Full Block form. — **8 marks**

D) Heerson Stores had ordered 50 kgs of dry fruits from a supplier in Goa. The consignment delivered was infested with worms. On behalf of Heerson Stores, write a letter to the supplier in Modified Block Form. — **7 marks**

Q 4 A) Write a Sales Letter to promote the sales of an advanced air purifier. The letter should be written in Modified Block Form. — **8 marks**

B) Your grandfather has not been receiving his pension from Shipping Corporation of India. In spite of regular reminders no action has been taken. Use the RTI Act to write to the pension office and question about the non-receipt of pension to which your grandfather is entitled. — **7 marks**

OR

Q 4 C) Draft an investigative report to the Director, Head Office, Bata Shoes Ltd., reporting about the outbreak of fire and the resultant inability to manufacture at the Company's manufacturing plant at Valsad, Gujarat and the estimated time frame when Production can commence. — **8 marks**

D) Draft the notice and agenda for the Annual General Meeting of Bala Sons Ltd. — **7 marks**

Q 5. A Prepare an individual report with recommendations on the declining sales of Annie Cosmetics in the Noida market. — **8 marks**

Q 5. B   Summarize the following passage.   **7 marks**

The tiger is a protected animal. Poachers can be jailed or fined if caught. However, the tiger trade is so profitable that the animal continues to be in danger.

The story of a tiger cub called Nicky caught public attention. Nicky was saved from the cooking pot by an animal lover. The Malaysian Trade Commissioner to Papua New Guinea learned that a tiger cub had been sold to a restaurant in Kuala Lumpur. He paid more than RM10,000 for the cub and gave it to the Malacca Zoo to keep. Mysteriously, the cub disappeared from the animal clinic where it was being kept for examination. For two days the public worried. Many people feared that the animal had been stolen. To the relief of the zoo staff and the concerned public, Nicky was found safe. She was playing near the tiger enclosure. Luckily, it had rained so at least there were puddles of water for her to drink. She was hungry but appeared none the worse for her adventure. Nicky could have wandered out when some employee carelessly left her enclosure unlocked. The other possibility was that someone had tried to steal her. When that person realized that the tiger is a protected species, Nicky was returned to the zoo.

Human beings are strange. The desire for exotic foods appears to be universal. People eat bears' paws, camel humps, duck embryos, ostrich and even crocodiles. The list appears endless. Nobody really seems to have strong objections. As a result, some animals look to be in grave danger of disappearing from the face of the earth.

Q 5. C   Write Short Notes On (any 3)   **15 marks**
  1.   Reprimand Interview
  2.   Disadvantages of meetings
  3.   Virtual Conference
  4.   Press Release
  5.   Teleconferencing

Marks:75

Date : 31-Mar-2023   **Time : 11:30am to 2:00pm**

Q1A) **Choose the correct alternatives (any 8 out 0f 10)**   **8 marks**

1. To draw percentage bar diagram height of each bar is --------units
    a) 1
    b) 5
    c) 10
    d) 100

2. Which of the following is the example of continuous variable?
    a) Petrol consumption per day
    b) Number of cars moving on road per day
    c) Number of shirts manufactured by factory
    d) Number of persons travelling by bus

3. ------------ divides the given distribution into 10 equal parts
    a) Quartile
    b) Decile
    c) Median
    d) Percentile

4. Standard deviation of data 4,6,7,5,8 is--------------------
    a) 1.4241
    b) 1.4142
    c) 1.4421
    d) 1.4412

5. If company manufactures three products which are processed on two machineries, then LPP has
    a) 2 decision variables & 3 constraints
    b) 3 decision variables & 2 constraints
    c) 2 decision variables & 2 constraints
    d) 3 decision variables & 3 constraints

6. Median of the data 56, 60, 65, 68, 70, 74, 77 ,80 is
    a) 69
    b) 65
    c) 68
    d) 70

7. If $r = -1$ then there is -------------- correlation between given variables
    a) Perfect negative
    b) High degree negative
    c) Low degree negative
    d) Moderate negative

9. Geometrically linear function is represented by ------------------
    a) Circle
    b) Straight line
    c) Parabola
    d) Hyperbola

1

10. Amit has scored 55 marks in Maths with credit points 4, 70 marks in Physics with credit points 4.5, 56 marks in Biology with credit points 3, 50 marks in English with credit points 3.5 & 54 marks in chemistry with credit points 5. Average marks scored by Amit is
   a) 68.3333
   b) 52.7777
   c) 58.5333
   d) 55.2222

Q1B) **State whether the following statements are true or false (any 7 out 0f 10)**   7 marks
1. Mode of the data is 2, 3, 3, 3, 5, 6, 3, 5, 3, 4, 1, 2, 3, 3 is 6.
2. If two variables change in the same direction then there is positive correlation between them
3. If $y = a + bx$ is regression equation of y on x then y is dependent variable & x is independent variable.
4. A measurable characteristic of a population is known as parameter.
5. Coefficient of quartile deviation is calculated as (Q3+Q1)/2 where Q1 is lower quartile & Q3 is upper quartile
6. Performance of student is example of attribute.
7. Graphical method can be used to solve LPP which has any number of variables
8.. Range is most appropriate absolute measure of dispersion.
9. To draw frequency curve, we take class mark of each class on x axis.
10. In LPP, each decision variable is always positive.

Q2 A Given below is the distribution of daily wages of 1000 employees. Calculate 6th decile & 80th percentile   8 Marks

Daily wages in '00 Rs.	5 − 7	7 − 9	9 − 11	11 − 13	13 − 15
No. of employees	200	250	300	150	100

Q2 B Solve the following LPP by graphical method   7 Marks
$Max\ z = 9x + 13y$ subject to $2x + 3y \le 18$, $2x + y \le 10, x, y \ge 0$

OR

Q2 P Find arithmetic mean & mode of the following data   8 Marks

Age in years	20-25	25-30	30-35	35-40	40-45
Number of policy holders	100	120	180	150	50

Q2 Q Find Karl Pearson's Correlation Coefficient between x & y 7 Marks

x	8	5	9	7	10	11	6
y	11	8	12	10	13	14	9

Q3 A Find mean, standard deviation & coefficient of variation of the following data   8 Marks

Number of accidents per day	2-4	4-6	6-8	8-10	10-12
Number of cities	12	18	25	15	10

Q3 B If $2x - y - 15 = 0$ is regression equation of x on y & $3x - 4y + 25 = 0$ is regression   7 Marks
equation of y on x then find mean of x & y, regression coefficient of both lines & correlation
coefficient between x & y

<div align="center">OR</div>

Q3P Draw less than ogive to represent the following data & hence locate median   8 Marks

Weight in kg	20-30	30-40	40-50	50-60	60-70
Number of persons	10	15	25	20	10

Q3 Q Find Spearman's Rank Correlation Coefficient between x & y 7 Marks

x	70	85	70	60	56	56
y	45	78	60	50	50	78

Q4 A Doctor has recommended his patient to purchase two food packets F1 & F2 which contains   8 Marks
two types of nutrients proteins & vitamins. 1 packet of F1 contains 10 gm of proteins & 10 gm
of vitamins. 1 packet of F2 contains 10 gm of proteins & 20 gm of vitamins. Minimum daily
requirement of protein is 200 gm & vitamins is 300 gm. The cost required to purchase 1
packet of F1 is Rs.45 & 1 packet of F2 is Rs. 40.
Formulate the above problem as LPP & solve by graphical method.

Q4 B A sample of 10 pairs of observation of x & y lead to the following result.   7 Marks
$\sum x = 100$, $\sum y = 80$, $\sum y^2 = 1300$, , $\sum xy = 300$ Find the regression equation of x on y
& hence find the value of x when $y = 12$

<div align="center">OR</div>

Q4 P Calculate lower quartile, upper quartile, quartile deviation & coefficient of quartile deviation   8 Marks
of the data given below

Monthly sale in '000 Rs.	23-25	25-27	27-29	29-31	31-33
Number of shops	40	50	80	60	20

Q4 Q The following data represent marks scored by 25 students in Statistics. Classify the following   7 Marks
data by taking classes 10-20,20-30,30-40 & so on & hence find its median
18,22,38,48,39,37,24,23,19,17,27,54,30,50,46,34,23,17,25,36,57,43,32,25,28

Q5 A Discuss various types of bar diagram with suitable example of each.   8 Marks
Q5 B With suitable example explain the steps to formulate given problem as LPP.   7 Marks

<div align="center">OR</div>

Q5   **Write Short Notes On (any 3)**   15 Marks
1   Pie diagram
2   Histogram
3   Meaning of correlation & its various types
4   Advantages of Sampling
5   Range & Coefficient of range

M.L.DAHANUKAR COLLEGE COMMERCE
EXTERNAL EXAMINATION –April 2023
FYBFM SEM II
SUBJECT :Computer Skill I

Marks:75

Date & Time : 10ᵗʰ April, 2023 11:30am to 2:00pm

Q1A) **True or False (any 8 out 0f 10)**   **8 marks**
1. Computer is very high speed electronic device
2. The computer's accuracy is always low.
3. A computer always has single memory called primary memory.
4. The electronic component in modern computer have very low failure rate.
5. Communication is most important disadvantages of computer system.
6. Computer's first generation invented in mid 1930.
7. Insert menu used to create chart in Ms-word.
8. Ms-excel is made of Row and Column.
9. If we want to write the formula in Ms-excel then "=" symbol used in end of formula.
10. Full form of IC's is internet Chip.

Q1B) **Fill in the Blanks (any 7 out 0f 10)**   **7 marks**
1. C and Cobol is _____ programming Language.
2. In computer structure _____ replaced by the transistor.
3. Full form of AI is _____.
4. _____ type of computer is used by NASA and ISRO for space discovery.
5. _____ type of computer wired in air-conditioned room.
6. _____ is full form of PDA.
7. _____ part of computer can be touch and see.
8. _____ option is available in Ms-word for creating a new document.
9. _____ is a shortcut in Ms-word for copy operation.
10. In Ms-excel by default _____ number of sheet available.

Q2 A	Write a short note on characteristics of computer.	8 Marks
Q2 B	Define the computer and explain super computer?	7 Marks

OR

Q2 P	What is computer and explain following computer generation	8 Marks
	1. First Generation	
	2. Second Generation	
Q2 Q	Write a short note on computer parts.	7 Marks

Q3 A	Explain following input devices	8 Marks
	1. Keyboard	
	2. Mouse	
Q3 B	What is a meaning of output device? Explain any in two in brief.	7 Marks

OR

Q3P	Write a short note on internet?	8 Marks
Q3 Q	What is meaning of internet telephony.	7 Marks

Q4 A	What is windows operating system? Explain its features?	8 Marks
Q4 B	Write a short note on following	7 Marks
	1. Task bar	
	2. My computer	

OR

Q4P	Discuss following concept	8 Marks

1. Recycle Bin
2. My document

Q4 Q Explain how to use WordArt tool in Ms-Word?   7 Marks

Q5 A Explain following formula with example   8 Marks
1. Vlookup
2. Hlookup
3. Mid
4. Sum

Q5 B Write a short note on creating chart in Ms-excel.   7 Marks

OR

Q5 Write Short Notes On (any 3)   15 Marks
1 Fifth generation computer
2 Mainframe computer
3 Computer Memory
4 Email.
5 Instant messaging
